UTZ Certified is a program and a label for sustainable farming worldwide. Sustainable farming helps farmers, workers and their families to fulfill their ambitions and contributes to safeguard the world's resources, now and in the future.

The mission of UTZ Certified is to create a world where sustainable farming is the norm. A world where sustainable farming is the norm is a world where farmers implement good agricultural practices and manage their farms profitably with respect for people and planet, industry invests in and rewards sustainable production, and consumers can enjoy and trust the products they buy.
