

# Where does Volcafe sit in the supply chain?

## Source

We pride ourselves on our quality and range, buying from farmers across our origin network.

Volcafe Way agronomists train producers in sustainable farming techniques for long-term prosperity and security.

## Process

Pulping, fermentation, drying, milling, sorting and packing, HSE, quality control and cupping.

## Trade

Supply and demand research. Price risk management via derivatives.

## Ship

Container shipping and logistics.

## Import

Quality labs and cupping. Local storage and distribution.

## Just-in-time distribution

We deliver green coffee in bulk to large roasters or small batches to micro-roasters.

Roasters prepare the beans for consumption at home or in cafes and restaurants. We supply the beans for 80 billion cups a year!
